WE ARE YOUR PARTNER FOR MANUFACTURING SERVICES

WE ARE AN IATF 16949:2016 CERTIFIED ORGANIZATION
SANGEETA INDUSTRIES was formed on 13th February, 1989. The objective was to cater to the needs of OEM's in the engineering field by manufacturing and supplying sheet metal components.

The company is recognized as a quality conscious company striving to provide best services to its customers, and is uncompromising in terms of product quality and on-time delivery.

Total No. of machines – PP: 146, VMC -1, Wire Cut -1, Tool development machine - 16, Wire bending machine-1, narrow blanking line, pipe bending and a complete weld shop,

As the organization grows it is moving towards professionalizing itself further from a proprietorship to private limited

Dedicated team of around 190 members

It is spread over almost 2 acres
<table>
<thead>
<tr>
<th>Vision</th>
<th>Mission</th>
</tr>
</thead>
<tbody>
<tr>
<td>“To enable our clients to explore new areas of opportunity and expand perspectives in providing quality products at an optimum cost”</td>
<td>“To be leaders in providing comprehensive customized manufacturing of sheet metal &amp; fabricated components to clients”</td>
</tr>
</tbody>
</table>
On our vision road we have already developed our competency on:

- **Assembly** - Automobile part assy, Electrical part Assy.
- **Surface finish** - Plating, Powder coating, & Painting
- **Design** - Auto cad, Pro~E, Catia, Solid Works
- **Fabrication** - Spot welding, TIG welding, projection welding, mig welding, Arc welding. Upto 12 mm plate, 48 mm od tube & 30 mm bar (rod)
- **Tubular** - (CNC Bending AND SPM bending) manufacturing upto 48 mm OD
- **Stamping** - Extra deep drawn part mfg Thickness range 0.6 to 3.15 mm, processing of high carbon steels, spring steels and eutectic stainless steels, Aluminium
- **Development** - Tools, Jigs, Fixtures (machine & welding), Panel Checker
- **Design** - Auto cad, Pro~E, Catia, Solid Works

Sangeeta Industries
This competency has been achieved on developing & strengthening the pillars of..

- Good team-mix of young enthusiasm & old experience
- Team of ~190 members with 10+ engineers having a collective experience of 100+ years

</table>
And their continuous upgrade through training…

**Manning & Training** - Presently we have right mixture of workforce including skilled and semiskilled.

**Development** - A Design & Development Head supported by a Tool Room Head, Designers and a well manned Tool room.

**Production** - Production is managed by a Production head supported by a team of supervisors

**Quality** - A well trained & resourced Quality function with a QA, supported by a team of QC

**Assembly** - A separate team for assembly and wiring
Ensuring we have a **System** that meets the latest industry standards...
Helping us cater to the following sectors…

We manufacture around 200 components for multiple clients across multiple sectors with automobile contributing ~60% of the component mix.

However we are the supplier of choice for most of the refrigeration OEM’s, thereby contributing ~55% of our SOB.
Served these reputed clients in different sectors…

- White Goods/ Home appliances
  - Whirlpool
  - Godrej
  - LG
  - Carrier

- Automobile
  - JBM Automation
  - IFB
  - Mahindra 2 Wheelers

- Power
  - HERO Motors
  - Lightning Talk

- Air Conditioning
  - Carrier
  - Donaldson
  - Mahindra
We serve our clients through a wide portfolio of products...Tubular parts...

We manufacture around 200 components for multiple clients across multiple sectors.
We serve our clients through a wide portfolio of products…illustrative samples

Part Name-Upper bkt. Customer – M2Wheeler

Part Name- Base rear Customer – M2Wheeler
We serve our clients through a wide portfolio of products... illustrative Products.

- Self / Our input designed product
- Moves across X & Y axis

We manufacture around 200 components for multiple clients across multiple sectors.

Sangeeta Industries
Engineering and Design

Design using AutoCAD and 3-D Modeling

A well equipped Tool Room having:

• Development facility
• 1 - VMC – 3 axis – TAL make
• 1 - Wire cut – Ultima
• 2 - Lathe’s – 8 feet & 6 feet
• 4 - surface grinders
• 2 - M1TR
We have the most comprehensive Welding shop which includes facilities for:

1. Spot welding
2. MIG Welding
3. Projection
Feed er

INTRODUCTION OF FEEDER WHICH HELPED US IN INCREASING THE RATE OF PRODUCTION
PACKING STANDARDISATION

INTRODUCED PRESSURE FREE PACKAGING MACHINE TO AVOID ANY KIND OF HUMAN ERROR
PNEUMATIC GAUGING SYSTEM

IN HOUSE MADE GAUGING SYSTEM TO INCREASE THE SPEED WITH 100% GAUGING
Manufacturing

We have skilled manpower with Stamping experience
Manufacturing

We have Precise Pneumatic Machines.
Manufacturing

We have Complete set of line for EXPANDED LINERS to Serve Filter Industries
Standards Room

Our Standards Room has complete range of Inspection instruments.
Infrastructure

We have introduced 55 KW solar power system.

Sangeeta
Staff Welfare

Hygiene drinking water provided to workers & Staff.
Manufacturing

New machines added with safety features
